Aeroflot (Civil Air Fleet)
Air Lines Schedule for Summer 1957

Main Administration of the Civil Air Fleet
at the Council of Ministers of the USSR

Aeroflot, Razin Street, No. 9

Telephone: 1-00-65

Cable address: Moscow, Aeroflot

How to use the schedule

Consult the indices of individual flights or airports on pages 3-5 and 6-7, respectively: the indices refer you to the tables where the desired information can be obtained.

The type of service is specified in the schedule as p for passenger, mp for mail and passenger, m for mail and fr for freight.

What is given in the schedule as the time of departure is in fact the official take-off time of the airplane; hence, for practical purposes, the time of departure should be understood 5 minutes earlier than shown in the time-table.

All internal USSR flights are arranged in the schedule in accordance with the direction of the flight.

Eastern direction: flights to Barnaul, Vladivostok, Izhevsk, Irkutsk, Kemerovo, Kurgan, Molotov, Magnitogorsk, Novosibirsk, Omsk, Tomsk, Sverdlovsk, and Krasnoyarsk, and from there to Khabarovsk, Yuzhno-Sakhalinsk, Yakutsk and Magadan.

Central Asian direction: flights to Alma-Ata, Aktyubinsk, Akmolinsk, Ashkhabad, Balkhash, Dzhusaly, Karaganda, Kustanay, Nukus, Penza, Stalinabad, Tashkent and Frunze.

Volga Region direction: flights to Astrakhan', Kazan', Kuybyshev, Saratov, Stalingrad, Ul'yanovsk, Chkalov.

Caucasus direction: flights to Adler, Baku, Yerevan, Kutaisi, Krasnodar, Mineral'nyye Vody, Rostov, Tbilisi, Sukhumi.

Ukraine direction: flights to Voroshilovgrad, Dnepropetrovsk, Zaporozh'ye, Zhdanov, Kiyev, L'vov, Kishinev, Odessa, Stalino, Stanislav, Uzhgorod, Chernovtsy.

Crimea direction: flights to Simferopol'.

The original timetables comprise, in many instances, a large number of columns corresponding to different flight variants over the same route. Due to space considerations, some of these tables have been split in translation, each of the splinter tables bearing the number of the original table.

Information To All Passengers Of The Aeroflot Line

In all city agencies of the Aeroflot, advance sale of tickets begins five days prior to departure of aircraft. In the resorts, the tickets may be obtained ten days in advance. Round-trip tickets valid for a year are sold at a 10% reduction. City agencies of the Aeroflot accept orders by phone and have a home delivery service. Military personnel and their families, possessing tickets to travel by rail or water and wishing to go by air, may turn in these tickets to an Aeroflot agency in exchange for an air travel ticket and pay the difference. Stop-overs up to three days are permitted provided the agency is properly informed at the time of the sale of the ticket. When purchasing the ticket the passengers should indicate the weight of their luggage; luggage not checked in advance can be accommodated only if the total quota for the plane has not been exceeded. Heavy luggage must be brought in at least one hour before departure. The checking of luggage usually ends thirty minutes before departure and 45 minutes before the departure of Tupolev-104. The size of luggage should not exceed the norm of 40 x 60 x 100 cm. No inflammable, poisonous or explosive materials can be accepted as luggage. Binoculars and cameras should be kept inside the valise.

ends)

Boarding the plane begins 15 minutes and 5 minutes prior to the official take-off. Time of boarding is announced through loudspeakers. The passengers are admitted to the platform only when accompanied by the officer on duty. Women passengers with children go first. Prior to the take-off, all passengers must fasten their belts. Due to the difference in air pressure the passengers are warned that ink might flow out of their fountain pens; consequently, it is suggested to empty all pens before departure to avoid staining their dress.

When notifying friends or relatives about your departure (either by phone or telegraph), it is advisable to indicate not only the time of departure but also the flight number: this will inform them correctly about the time of your arrival.

Information To All Passengers Of the International Airlines Of The Aeroflot

Conditions of Travel

Only persons holding tickets and all necessary documents to comply with various passport, custom and sanitary regulations, are permitted to use the services of the international airlines of the Aeroflot. An extra fee provides the passenger of long distance travel with sleeping accommodations. The sleeping accommodations should be ordered in advance and paid for when purchasing the ticket. Tickets for foreign-bound flights from the USSR via Beograd, Prague, Vienna, Warsaw, Peking and Helsinki can be purchased only after the confirmation by the respective international airlines. To obtain such a confirmation in time it is advisable to apply to the Aeroflot at the earliest date. If you purchase a ticket via Moscow, it is necessary to obtain a reservation for the plane flying from Moscow. Passengers who already possess such a reservation, should check it at the Moscow airport not later than one hour after their arrival there. Passengers with round-trip tickets and all stop-over passengers flying through Moscow and having reservations should check their reservations not later than 12 o'clock noon of the day preceeding the departure.
